Vertex Systems Cloud Solutions Requirements

The Vertex Systems cloud-based solution operates through the web via the browser on any of the specified operating systems. We manage all updates and maintenance within the cloud environment, excluding on-premises equipment, which allows for your organizations' resources to be focused on business-specific operational areas.

Vertex Solutions

- ☑ Vertex Rehab Management
 - ☑ Client Payroll Manager
- ☑ Intuition
 - ☑ Vocational Time
 - ☑ Documentation
 - ☑ Attendance
 - ☑ Service Billing
- ☑ Intuition by Vertex (IBV)
 - ☑ Case Management
 - ☑ Timeworks Plus
 - ☑ Time Simplicity

Workstation Specifications

- ☑ **Processor:** Single or multi-core, 1.5 GHz
- ☑ **Memory:** 4+ GB
- ☑ **Operating System:** Windows 7 & Windows 10
- ☑ **Browser:** IE 10, 11 and Chrome
- ☑ **Monitor:** 1280 x 1024 is recommended for optimized performance
(Windows 98, Windows ME, Windows XP, Windows Vista, Windows 7 Starter, Home Basic, Home Premium, Windows 8 and 8.1 are not supported.)

Note: We recommend Windows 7 or 10 to ensure optimal levels of security by utilizing the latest enhancements from Microsoft.

Network Specifications

Network requirements will be dependent upon size, number of users, and geographic locations of the organization. The hardware needed may include a switch attached to the access point provided by the Internet Service Provider (ISP), depending upon the number of users needing access and the specification limitations of the ISP provided hardware. The switch needs to have connection points (ports) equal to the number of users.

Remote Access

Vertex Systems, Inc. requires remote access for installations and support:

- ☑ Vertex uses ScreenConnect for support via web browser.
 - <http://www.vertexsystems.com/support>
 - <https://remote.vertexsystems.com>

- ☑ Agencies or organizations may provide another preferred product such as LogMeIn, GoToMyPC, or other equivalent products.
