

Better Serve Your Clients with Industry-Specific Cloud Software

Your clients are the heart of your agency. Reduce time-consuming, complex administrative tasks that demand valuable time from your staff and empower your agency team to spend time where it matters—delivering exceptional care for clients.

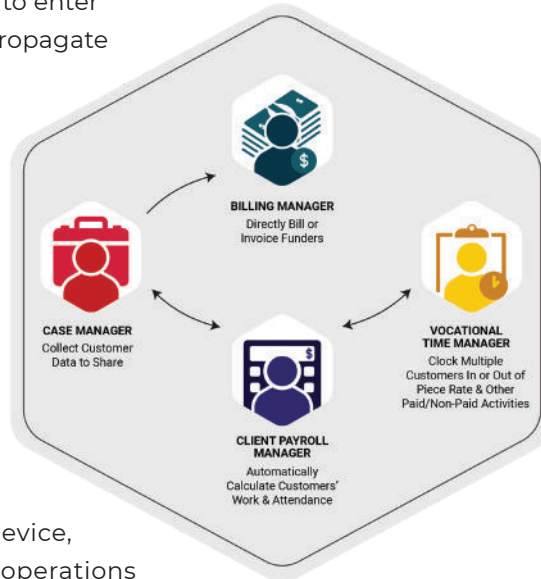

Vertex streamlines your agency's operational workflow with a modular, comprehensive platform affordable for agencies of all sizes.

The Vertex System – A Powerful, Integrated Solution

As an expert in developing systems to aid agencies serving the Intellectual and Developmental Disabilities (IDD) community, Vertex increases speed and accuracy. With the Vertex solution, users only need to enter information into one module and see it propagate across all others, eliminating error-prone spreadsheets and costly duplicate manual entry.

Run Your Agency with a Single Platform

With the cloud-based Vertex solution, the entire cycle is connected, including case management, billing, time and attendance, payroll, accounting, and production management. Modules are accessible on any computer or mobile device, ensuring you stay connected to agency operations from any location.

Save Time, Reduce Costs

Lower your staff's workload by up to 70 percent with Vertex and increase the time employees spend with clients. Whether your rehabilitation agency is growing or a full-scale operation, the Vertex modular system boosts top and bottom-line revenue.

To keep your agency running at optimum speed, the Vertex customer service team is ready to answer your questions.

Experience the complete, integrated IDD solution uniquely built for agencies that serve those with disabilities. Contact the Vertex team to schedule a demo.
