6 REASONS WHY SUCCESSFUL IDD AGENCIES MOVE THEIR BILLING TO THE CLOUD

See how the Vertex Cloud software is helping IDD Agencies manage audits, control costs, and return more time to their day.

1 KEEP MOMENTUM; ADD FLEXIBILITY

Billing in the cloud offers IDD Agencies the flexibility to change and the ability to quickly address governmental changes, allowing your agency to keep the momentum.

2 ALLOW WORK FROM ANYWHERE

The use of smartphones and tablets with the right software to collect documentation and outcomes allows the DSP to work more like they want, where they want – while you maintain accurate records and avoid audit exceptions.

3 BOOST COLLABORATION

Rehab agencies are moving their operational processes to the cloud to readily share information. The cloud provides relevant information to the right people and the right processes, on the device you choose.

4 SECURE HEALTH DATA

Cloud is now the premier choice for business and nonprofits all over the world because it is an affordable, trusted technology that leaves the job of security to high level professionals.

5 AVOID CAPITAL EXPENSES & CONTROL IT COSTS

Cloud is the premier choice for businesses & nonprofits across the world due to its affordable, trusted technology that leaves the job of security to high level professionals.

6 INCREASE TOP-LINE REVENUE

Daily review by the DSP or Case Manager using spreadsheets & outdated software takes many staff hours to score & react to changes. Vertex's cloud-based system automates client attendance, service planning, service delivery & billing process.
