

# 3 Ways a Robust Billing Module Helps Organizations Save Staff Hours

## 3 Ways to Save Staff Hours

Help your organization save up to 70% in staff hours by streamlining billing processes, such as

- Rebilling
- Billing Invoice Preparation
- Payment Application
- Accurate Billing Calculation
- Authorization Management

01

### Manage Renewals with Ease

Billing Manager will notify you when authorization is due for renewal based on specified days. Funders allowing electronic 837 submissions can send files in just one click, saving you valuable time and effort. Now, users can easily stay on top of renewals.

02

### Gain Comprehensive Insights Using Robust Reporting Tools

Get complete visibility on your budget and actual spending with the A/R analysis tool. Using Authorization Utilization reports, you can track unit, and dollar amounts effortlessly.

03

### Easily Collect & Record Client-Specific Information

Our platform simplifies collecting client information, allowing you to gather demographic and authorization details easily. You can then record service times and activities completed, streamlining the invoicing process and ensuring accurate records.

## Save Time on Billing Tasks While Maximizing Efficiency

The Billing Manager Module streamlines billing processes, freeing up valuable time so that providers can focus on what matters - delivering quality services to clients. By automating invoicing and tracking financial data in real-time, providers can quickly identify where to improve efficiency and profitability.
