VERTEX RELEASES BUSINESS CENTRAL V24 FOR IDD AGENCIES

Microsoft Dynamics 365
Business Central

For decades, Vertex has been providing Microsoft Business Central as a tailored back-office solution for IDD Agencies. This robust Finance, Payroll, and Production system integrates seamlessly with the front-end Vertex rehab suite, enhancing value for IDD agencies. With the release of Microsoft's latest Business Central version this summer, Vertex has updated its solution to include all the advanced features needed to support IDD agency operations.

Upgrading from Business Central v19 to v24 has been tested to be extremely smooth as the transition is performed with the same web-based architecture allowing users to adapt with minimal to no additional training.

We are now scheduling upgrades and slots are limited!

Upgrades are performed during weekends to minimize or avoid downtime.
